FORAGING WORKSHOPS

LEARN WHAT'S ON YOUR LAND

Identify plant species on your land and their uses, what parts are safe and at what time of the year to sustainably harvest. Keep enjoying your land's forgeable species year after year, along with identification of poisonous look-a-likes you may encounter.

Please let us know if you'd like to learn more such as basic wetland delineation, soil profiles, previous land uses and more when booking.

STARTING \$200 - MUST BE WITHIN CLEARWATER COUNTY, AB
